Re: Coverstar safety covers: UL and ASTM standard F 1346-91 for safety covers for swimming pools

All Coverstar cover systems including the Eclipse (CS 1800 SS), CS1800 (CS 1800), Leading Edge (CS1800 LE), CS1800 SwimWise (CS1800 SW), Omega (CS 1800), CS3000 (CS 1800) are UL listed (UL certification listing is shown in parenthesis). All meet the ASTM standard for safety covers as specified in ASTM standard F 1346-91 when they are installed and maintained properly according to the installation and homeowner instructions which have been provided by Coverstar. On several different occasions, the Coverstar covers, both automatic and manual have been tested by independent testing laboratories and have always been found to be in compliance with all the ASTM requirements for safety covers. Our covers are also listed by UL (File E164833) and classified by UL as a power safety cover in accordance with ASTM F 1346-91

If you wish to verify either of the UL certifications, take the following steps:

Go to www.ul.com

Once there click on Search UL.com

Click on [Online Certifications Directory](#).

Under General Search click on UL File Number

Type in E164833 and hit enter

You should now see Coverstar's listings. If you have problems, you can also search by company or by Automatic Pool Covers

If more information is required about ASTM and its standards, you can go to their website at www.astm.org.

Shown below is the UL authorized label that is attached to the automatic cover system that we ship which shows both UL certification and compliance with ASTM F 1346-91. A label is also placed on the front of every cover stating that we meet the ASTM safety standards.

If you have any further questions about our covers, the UL certifications or the ASTM standards, please call or Email me.
